

# Committee on Natural Resources

Rob Bishop Chairman  
Mark-Up Memorandum

April 13, 2018

To: All Natural Resources Committee Members

From: Majority Committee Staff – Terry Camp  
Subcommittee on Federal Lands (x6-7736)

Mark-Up: **H.R. 1037 (Rep. Stephen F. Lynch)**, To authorize the National Emergency Medical Services Memorial Foundation to establish a commemorative work in the District of Columbia and its environs, and for other purposes.  
**April 18, 2018, at 10:15 AM; 1324 Longworth House Office Building**

---

## **Summary of the Bill**

H.R. 1037 authorizes the National Emergency Medical Services Memorial Foundation (Foundation) to establish a commemorative work on federal land in the District of Columbia and its environs to commemorate the commitment and service represented by providers of emergency medical services. The bill prohibits the use of federal funds to pay any expense of the establishment of such work, makes the Foundation solely responsible for acceptance of contributions for, and payment of the expenses of, the establishment of such work, and provides for the deposit of excess funds received into a National Park Foundation account.

## **Background**

The men and women of the Emergency Medical Services (EMS) profession face daily risk and danger to help their neighbors in crisis and saving lives. EMS practitioners serve on the frontlines of medicine, safeguarding the health, safety, and well-being of the nation's communities. While their first-responder peers in law enforcement and firefighting have been honored with national memorials, EMS providers have not.<sup>1</sup>

EMS providers are critical to the nation's safety. They respond to incidents ranging from a single person's medical emergency to natural and man-made disasters, including terrorist attacks. The EMS, along with those in law enforcement and firefighters, are a vital part of the country's homeland and national security efforts.

---

<sup>1</sup> The National Law Enforcement Officers Memorial is located at 400 E Street NW, Washington, DC.  
The National Fallen Firefighters Memorial is located on South Seton Ave, Emmitsburg, MD.

Each year, 850,000 EMS providers answer more than 30 million calls to serve 22 million patients in need of care at a moment's notice.<sup>2</sup> According to data from the Department of Labor and the National Highway Safety Administration, EMTs and paramedics have a rate of injury that is about three times the national average for all occupations.<sup>3</sup>

H.R. 1037 would authorize the Foundation, a registered 501(c)3 organization, to place a commemorative work on federal land in the District of Columbia to commemorate the commitment and service represented by the EMS community. The establishment of a commemorative work must comply with the Commemorative Works Act of 1986 (40 U.S.C. § 8901 et seq.); no federal funds may be used to pay for the commemorative work, and the Foundation will be solely responsible for funding the project.

On August 1, 2017, Senator Christopher A. Coons (D- DE) introduced a companion bill, S. 1692. The Senate Energy and Natural Resources Committee favorably reported S. 1692 on March 8, 2018.

The Subcommittee on Federal Lands held a legislative hearing on H.R. 1037 on Wednesday, April 11, 2018.

### **Cost**

A Congressional Budget Office (CBO) cost estimate has not yet been completed for H.R. 1037. However, a CBO cost estimate has been provided for S. 1692. CBO estimated that implementing the bill would have no effect on spending subject to appropriation. Additionally, CBO found that based on the experience with similar commemorative projects, any amounts collected by the federal government for maintenance of the memorial would not be received for several years and would be offset by an expenditure soon thereafter. Thus, on net, CBO estimated that the effect on direct spending would be insignificant.

### **Administration Position**

The administration supports H.R. 1037. Joy Beasley, the Acting Associate Director of Cultural Resources, Partnerships, and Science at the National Park Service, testified in support of this legislation at the Subcommittee on Federal Lands hearing on April 11, 2018.

In addition, National Park Service Deputy Director P. Dan Smith testified before the Senate Committee on Energy and Natural Resources on February 14, 2018, in support of the companion legislation, S. 1692.
